---

Monica,

TCEQ is not expanding into TNC systems. They are looking at the existing data in RM and focusing on systems where the status is still unknown. I just forwarded the initial set of systems to focus assessments

**Subject:** FW: M6H1 – Harvey Response: I need clarification on our PWS universe

Has TCEQ expanded the scope?

It is our understanding that we are not doing TNC systems. Correct? Please advise.

I have conflicting information on exactly what type of water systems that we are now supposed to assess in Bravo Branch. I do know we are to assess ALL Community Water Systems (CWS) and Non-Transient/Non-Community (NTNC) water systems. The discrepancy is with the Transient Non-Community (TNC) systems.

Until we get clarification, we will not be assessing the TNC water systems.

Thanks,

**Mark McCasland**
